Extension to side and rear, including extension of roof to side with gable end, front and rear dormers

Dear Sir and Madam

Thank you for your letter dated 5th October 2021 advising me of the planning application for the property above.

As you may be aware, this property directly overlooks my kitchen and the distance between the property back fence and my kitchen is just over 2.5 metres adding to the fact that the elevation from my kitchen is 46cm. This obviously affords me little privacy since when I bought the bungalow 7 years ago there was a big shed which later on was replaced by a decking at he bottom of the garden. On occasions I had people peering over the fence into my kitchen just over 2 metres away!

I am prepared to agree to the extension submitted by Mr Andy Ramus if he would consider the following:

1. Replace the back fence, which is old and unlikely to last very long due to the very strong winds we are now experiencing, to an additional height one to give me more privacy.
2. Keep the existing trees which presently offer a screen.
3. Undertake to keep the trees over my parking area at a reasonable high.

I hope these requests will be agreeable to my new neighbours and look forward to a friendly relationship.

Yours faithfully

Valentine Parsons (Mrs)

P.S. I am forwarding some supporting photographs

Please find below supporting photographs showing proximity of fence to my kitchen door, view from the kitchen, poor state of the fence and trees overlapping my parking.
