Subject: new nursery

I am pleased you are trying to open another full day care facility in shoreham. There is a real need for places for children that are under 3. I am an EYP and a mother of a 7 month old and my concern in the lack of options. In my experience competition is good for increasing the quality of care for the children. Surely, improving quality of care for children and options for parents is far more important than putting someone else's nose out of joint that runs a sessional group! I have several friends who have been frustrated that they cannot find a place for there child in shoreham and are having to look to portslade or even further affield. I fully support you, please quote me if you wish.
best wishes,
Sarah
