ADUR & WORTHING
- 2 MAY 2019
PLANNING

Ref: AWDM/0446/19.

Dear Sirs,

Further to your letter to me on 11th April 2019 regarding a Single Storey rear extension and vehicle Access to 136 Manor Hall Road, Southwick, I would like to object to the application for the Sigle storey rear extension as this extension will cause a loss of light into the back of my property, namely the kitchen area of my property.

The proposed extension will surpass my extension on my property by 3/4 of a meter, by midday when the sun goes round parts of my kitchen will be in darkness with no natural light. My kitchen is 18ft in depth as the sun moves round my kitchen will end up in total darkness. I wish it to be known I object to this planning application, however if the

Application were to be amended so that the single storey extension were to the same depth measurement as my property I would have no objections as my natural light into the property would not be impaired or blocked.

The dimension to my back door, which is frosted glass for privacy, and to the window in my kitchen are as follows: Window is 31½" by 17½" and the door is frosted glass in two parts 21" at full height.

I hope you will take my objection into consideration

Yours faithfully

[redacted]

Mr D A Willan.
