Comments Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Reasons for comment:
- Design
- Overdevelopment
- Privacy Light and Noise

Comments: In addition to the comments I made in objection to the original plans, this amendment shows a pitched roof which is even higher than the original, making the structure even more imposing. In addition, I notice that there are windows at the side of the proposed extension which would look directly into my garden and at certain angles, my front room. I would like to add an objection on the grounds that this would result in a loss of privacy.

I notice that the wording on the amendment is conservatory 'style' and it appears that this is still a brick structure, the size of which would be overbearing and seriously impact on the light in my garden and front room. Based on the scale in the drawings, this will over shadow half of my outside space.
