To say we were shocked is an understatement,
we have no correspondence at all relating to
this £1300 let alone 7 Days to pay. We have
2 days later received an invoice,
As you are aware there is a recession
the construction industry is no longer in existance
We were supposed to have sold 50 Brookmans
but of course the devalued value hasn't covered
~~enough~~ even our outgoings.
We are not able to pay this straightaway
My husband has no work I now work full time
& have students to help pay bills. We have
charged our mortgage to interest only and
are still struggling we have a business overdraft
of £20,000 DR Cr. Cards to the value of £50,000
all can be proved.
We need to pay in very small instalments
and when construction comes to life again
we will be able to settle this bill.

Yours sincerely
