Description of Proposed Works

Please describe the proposed works

The property is a Fishermans cottage that was originally 4 small houses that had already been converted into one larger property. When we purchased the house three of the bedrooms on the top floor were interconnected with no independent access to the middle room. We have had to build a corridor to provide individual access into each of the rooms and this has resulted in one of the bedrooms having a very small window that couldn't be utilised as a fire escape. On this side of the house there are two other windows; a bedroom window that overlooks the neighbouring property and a bathroom window that has opaque glass but also overlooks the neighbours property when open. We would like to resize the small window so it is the same proportions as the other windows and to an identical finish so that it conforms with safety regulations. We have conversed with our next door neighbour who has no issues with the application as it will not impact on her privacy as two windows are already insitu. I am providing photos to help explain the application and also the previous existing floor plan and the current floorplan.
