This message was sent from outside Adur & Worthing Councils

I wish to object to the proposed application for the construction of a new classroom adjacent to my property at 35 Parklands Avenue Goring

I have lived at my home for the past 14 years during this time I have enjoyed the peace of my property

My garden is west facing and I spend a great deal of time there with family and friends during warmer weather

Since neighbouring property was granted permission to operate as a school I have experienced significant disturbance hard footballs kicked into my garden on at least 13 occasions which have landed without warning whilst sitting in garden which is potentially dangerous . I have asked for goal posts to be moved but this has not happened

I cannot enjoy my home or garden with this going on

Now the new plans for a proposed classroom to be built right along side my property on the north side and beside my drive bringing school activity even closer has really upset me

I am extremely concerned that this will result in increased noise and further loss of peace

Planning has a responsibility to protect residential neighbouring properties

I am 85 years old and my daughter has learning difficulties and lives with me we rely on our home and garden as peace and security

The proposed development will make matters worse

Can you please consider this effect the proposal will have on me and other residents

I appreciate importance of providing education facilities but it needs to be

BALANCED against rights of neighbours

I would appreciate it if someone from planning could meet with me at my property

Kind regards

Monica Jackson
