> Dear Sir/madam
> I refer to the your reference AWDM/1037/22
> Having responded and commented on the the single story extension within the 21 days of receipt of your letter .
> I can see that the council had commented with a no objection on 7th July. This is before the 21 days that I was given to make comments. This did not show on the Council website on Friday 8th July, or on Saturday 9th when I made my comments, which are still not showing and I assume have not been considered
> I have made phone calls and left messages for persons indicated on the letter I received dated 20th June and no one has returned my calls.
> Whist I understand that building works extensions are to be carried out .
> I would like to think some conditions and considerations would apply.
> For example-works are not to the original plans submitted ,date of work started in new application is incorrect..
> The fact that they have dug out and moved man hole to my side of the property and left a hole in my garden, with no answer as to how or when this will be fixed when questioned, is not acceptable.
> Using my garden as storage for their supplies including stacks of bricks without my consent is also not acceptable.
> I have photographs of this
> I would appreciate a response too my email
> As this is affecting my personal life and I am growing increasingly stressed and frustrated by the situation.
As requested in your auto response, the address I am emailing about is 5 Garden Close, Lancing, BN15 9SZ

>
> Kind Regards
