Reasons for comment:
- Design
- Overdevelopment
- Privacy Light and Noise

Comments: My property is situated directly opposite the proposed new construction of two story building. I have enjoyed privacy in my back garden for the past 57 years. Being a two story proposed construction I will lose all of this previously enjoyed seclusion. The proposed property would look directly into my Garden and into the rear of my property. All of the existing property icurrently situated in crossroad on its west side are located in a similar line this new construction would place a property much closer to all other properties in Phoenix way. I feel that if this construction were to go ahead it would be an intimidating elevation directly overlooking my rear garden and property.
