Reasons for comment:	- Design - Overdevelopment - Privacy Light and Noise
Comments:	Looking at the revised plans that have been submitted my husband I wish to o bject the plans. The purposed drawing give no exact measurements, therefore I have had to research similar buildings. The height of the side containers seem fine, however the dome itself will block afternoon sunlight from our garden, I'm guessing 4-5 hours per day (maybe more) during the summer time months. My three children and I spend a lot of time in the garden and this is one of my property's delight. Having the dome directly behind our garden (even though at an angle) will block sunlight, restrict scenery view and does look an eye sore for the locate residents.
