Subject: Comments for Planning Application AWDM/0351/24

Comments summary

Dear Sir/Madam,

Planning Application comments have been made. A summary of the comments is provided below.

Comments were submitted at 26/03/2024 9:23 PM from J King.

Application Summary

Address:	Worthing Football Club Woodside Road Worthing West Sussex
Proposal:	Provision of a roof covering across the West end standing terrace. This will replace and enlarge a previous roof covering that had to be removed in March 2023 for safety reasons. The development will also include the provision of a roof covering across the North East section of the currently uncovered standing terrace. (Part retrospective application). Application to Vary Condition 1 of approved AWDM/1227/23 to amend the roof design and length of stand.
Case Officer:	Gary Peck

Reasons for comment:	- Design
Comments:	Hi, I would like further information as to why the new stand needs a new roof when it has only just been built? A neighbor has advised this is because the stand has been built 1.2 meters higher at the back and 1.5 meters higher at the front than original

planning permission was for. If this is the case I would like to know why original plans were not actuate and if this will happen again with the new north stand? I have no issue with the football ground expanding, but the stand is not exactly nice to look at at the rear of properties and it is taller than I thought it would be which blocks our view and I also notice metal fencing has been added to fill in gaps for the brick wall, which is falling apart as it is. Can the west wall not be fixed by Worthing football ground considering so much work is being done, which we are all quite nicely not making much of a fuss about, even though traffic/parking issues and noise will increase with more supporters? I also worry suppeters will lean on the wall where the gap will be inbetween stands and this will cause it to collapse. Thanks.

Kind regards
