Reasons for comment:	- Other
Comments:	This new application for tile hanging rather than render will have a major impact to our 'loss of light' the first floor extension is already impacting to our natural light even with the original proposed render and we objected to this, we are still awaiting for questions to be answered !!! but to now go ahead with a overhang tile will be absolutely horrendous and put us into even more darkness. With the ground floor extension now not going ahead we strongly feel that this build will not be in accordance with the approved plan and the original plans submitted are not the true plans that will be going ahead. Please submit what the actual scope of works are to be carried out

as they contradict the plans submitted.

There have been a few changes to this plan and feel if they are not addressed there could potentially be even more changes and this build will not be in accordance with the original plans, then the whole application will have been farcical.

Kind regards
