Thanks Peter,

On that basis the LHA would have no objection to the application in terms of highway related matters, considering the size of the proposal, so long as the traffic management plan was secured via condition should planning permission be granted.

Kind Regards,
Emma

Hi Emma

If we are minded to support the application then, yes, we could condition compliance with the traffic management plan.

Thanks

Afternoon Peter,

Thank you for the additional information with regards to how the school drop off and pick ups will be managed. The below information is helpful and will help keep any disruption to a minimum. Are the local authority able to condition this management plan against the planning permission?

Kind Regards,
Emma

Hi Emma

I have received the response below from the applicant to your recent comments.

Could I please have your further comments?

Thanks

Hi Peter,

Please forward the following on:

Dear Emma Avis,

Thank you for your inquiry regarding the drop-off and pick-up arrangements for our school. We understand the importance of minimising traffic congestion and ensuring smooth traffic flow in the vicinity, especially given the proximity to the Chalex industrial estate.

To address your concerns, we have developed a comprehensive plan to manage the drop-off and pick-up of our pupils effectively:

Staggered Timings: We will implement staggered drop-off and pick-up times in intervals of 10 minutes for each class. This means that no more than 6 children will be collected or dropped off at any one time, significantly reducing the likelihood of traffic build-up.

Transportation Modes: A substantial number of our students either walk to school, lift share or use public transport. This reduces the number of vehicles arriving at the school site.

Designated Parking Spaces: Parents who do drive are advised to park further down the road in designated parking spaces. This strategy is intended to prevent congestion directly in front of the school.

Staff Parking: All staff members will park on the driveway, keeping the road clear for parents and ensuring that staff vehicles do not contribute to street congestion.

Supervision: A member of staff will be present during drop-off and pick-up times to supervise and manage the process. This will help ensure that vehicles do not stop inappropriately and that the flow of traffic remains uninterrupted.

Signage: We have put up a sign to ensure no parents park in front of any driveways and follow the parking policy outlined above.

We believe these measures will effectively manage the drop-off and pick-up traffic, ensuring minimal disruption to the local traffic flow and maintaining the safety and convenience for both our students and the residents in the area.

Thank you for your attention to this matter. We are committed to working with you to ensure a seamless operation and appreciate your cooperation.

Many thanks,
Rachael Ammari
