Subject: RE:AWDM/0118/12

Dear Sir/Madam

With regard to my letter of objection to the Planning Committee which I delivered on Monday afternoon by hand, I should like to make the following points having spoken to my local Councillor.

If the height of the ridge were to be reduced by 4 feet I would expect the view to be unobscured which is the main issue of my objection. It would not alter the character of the existing property as much and the additional living space which the family require would obviously not be reduced at all. The lowering of the height of the roof would be an acceptable solution to the problem of the proposed extension completely blocking the light to my property and affecting the overall view from my sitting room and kitchen. If this were acceptable to the occupant of 33, Norbury Drive I would withdraw my objection.

Yours faithfully

Annette Williamson
