I am writing to give my full support for the roller rink to operate in ex parcel force building

Must say I was a bit concerned when I first heard about the plan but I am very pleased to say we have had no problems at all. the staff have been very friendly from day one Explained what they were planning on doing & they have done wonders with the interior of the building & so many people get a lot of enjoyment using it
I do spend a lot of time at yard day & night as I have had a boats in yard for twenty years now & have never seen anybody causing a problem since they started to trade also music is always very low I often think it is closed it is so quite
Other boat owners are happy that building is being used again plus I feel it has added to the security of yard with the staff from roller rink being around in the evenings

The only shame is one or two houseboat owners who I must add have not been here very long seem to have a vendetta against the roller rink from day one they seem to enjoy causing problems when ever they can but I feel this would be the case what ever business was using ex parcel force building this is the first time they have experienced a business being run from this building it has been silent & empty & they just want it to stay that way but they need to live in the real world

I remember the days when parcel force was using building we had lorries at all hours pallets being dropped people shouting the radio on full blast I never needed music on my boat as it was so loud you could hear it anywhere in the yard but it is a industrial site so nobody complained

I know the building will be pulled down at some stage which is a shame just to make way for more flats, Shoreham as we know it is fast disappearing which is not what a lot of local people want
