Dear council.

BN 435GJ

I am writing to say that I strongly disagree with your decision to ~~shut~~ shut down Shoreham roller central. I have been going there pretty much every saturday since it opened and I would really hate to see it shut down. Before I first went there in september, I could not roller skate at all. but everybody there ~~was~~ were really nice and helped me out, and now me, and my brother and sister can fully skate. Ever since then I have been totally addicted to skating. I have got two of my best friends into it too, and it is the thing that we most look forward to at the end of a week at school. so I really don't see why they can't ~~have it close~~ use the building until september, as planned. The building has ~~not been~~ just been sitting there for years, and ~~nothing~~ Roller central came up with the genius idea of making a roller rink there.
As for saftey, they could not be more careful. All the barriers are covered in foam, and if someone does ~~get~~ get hurt, there are skateguards everywhere. These are experienced skaters who have been doing it for many years, and would lose their job and be ~~angry~~ annoyed if it shut down. if somone does fall over, the skateguards will block of part of the rink around help the person up, as well as looking after them is they are hurt. But nobody is likley to be badly hurt because skaters can borrow knee pads, elbow pads and wrist guards for free.
There is no problem with noise as far as I can see. You can barely hear the music from the car park.
To me, roller central is the best part of shoreham and I know many other people who feel the same way. It's great exercise, it's great fun, ~~it's~~ and its fairly cheap.

turn over →

teenagers occupied. (it's ~~Hate~~ much better than playing on your PS3 all day). If there is any reason why they can't stay, people need to know, because If not I would really appreciate it if they could stay until September.
