24/05/2025

Dear Worthing Council

I've reviewed the plans for AWDM/0530/25.

and I fully support this application.

I am currently building my own house and know the build quality of this development is extremely high.
The design and appearance of this latest amendment fits better with the previous amended plots 3a and 3b and also respects the surrounding properties.

It's nice to see local people designing and building houses to standards high above national developments and that improve the character of the area.

This amendment seems to provide exactly what is required and sadly missing from Worthing new homes.
