Reasons for comment:
- Design
- Privacy Light and Noise

Comments: Due to the extended length and height of the extension on the east side of the house this will affect the amount of light that is coming into my property. This will also affect the reflected light that we have from the present garage outer wall which is rendered and painted. this is also in keeping with the design of this property. To have such a long brick elevation will be an oppressive eyesore to live with.
