Site and location plans

Design Statement

The proposals are for a resubmission of a two storey rear extension. The first application (No ADC/0348/06) was refused on the grounds of its size and impact on the surrounding properties. Therefore the proposals have been amended as per the Planning Officers recommendations.

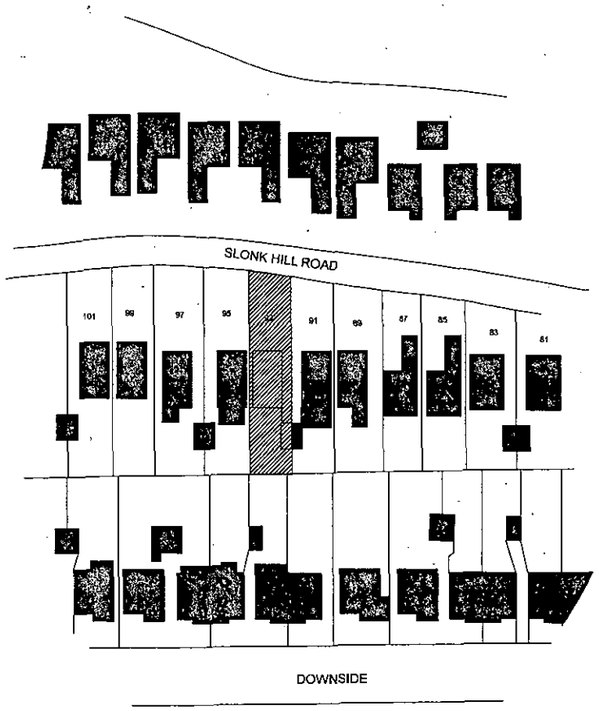

To obtain 2 floors of accommodation, the roof of the proposed extension has been designed to be sunk into the ground by approximately 500mm. Allowing for this will create a reasonable size 3/4 bedroom property. The Juliet balcony is included in the scheme to make full use of the elevated position, and has been designed to ensure that the privacy of the neighbouring properties is not interrupted, therefore also creating a private outside area for the property. The privacy of the properties to the rear will be no different from that of a window in the rear elevation.

New materials are to match with the existing finishes.

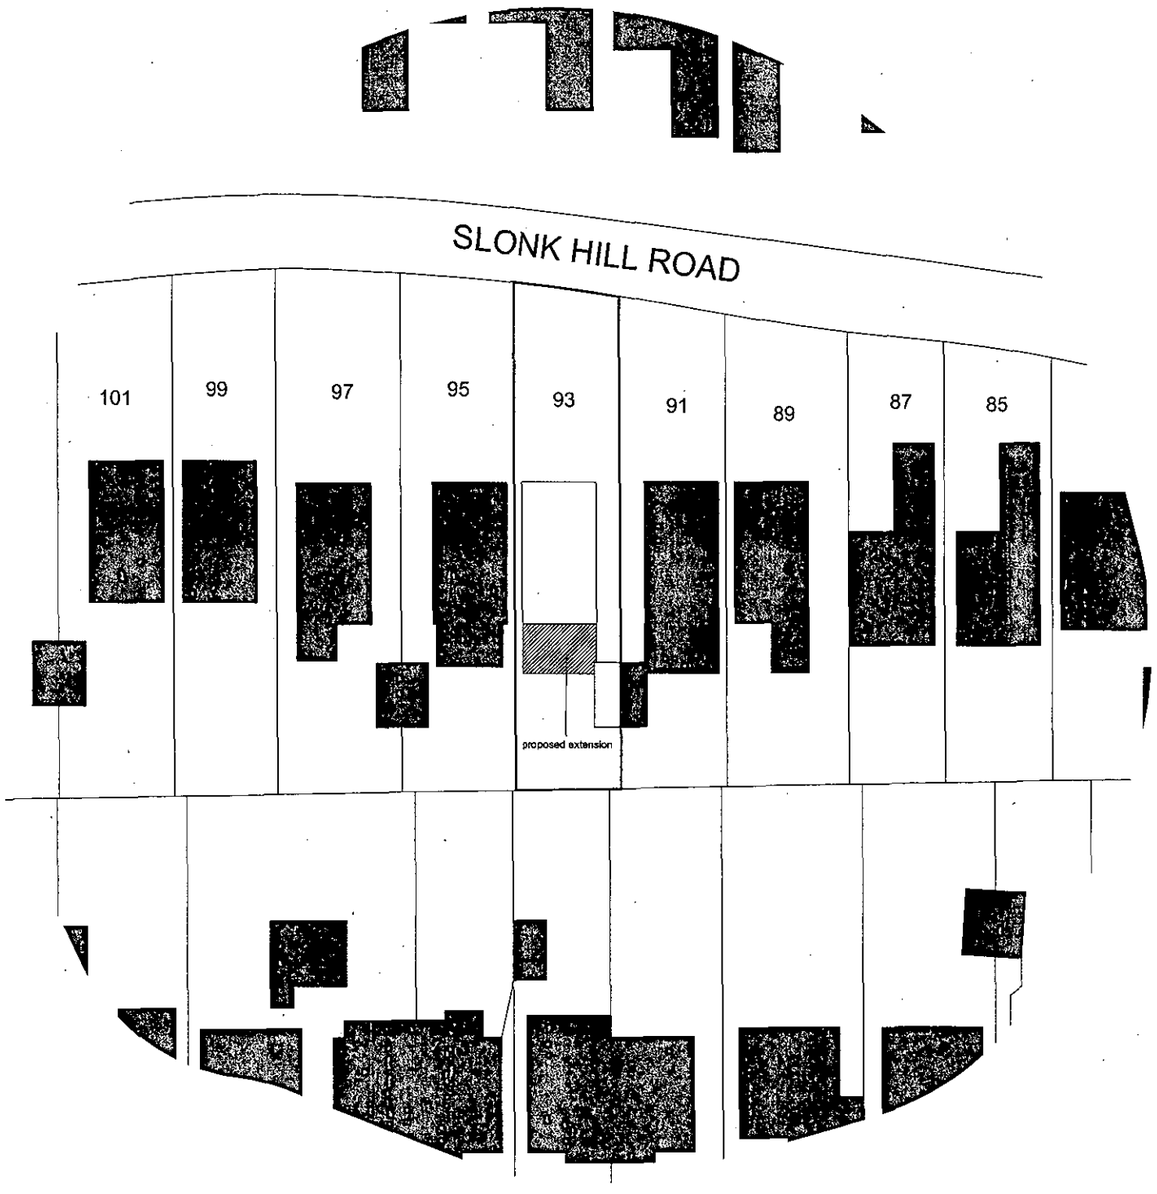

If you require any additional information, then please do not hesitate to contact me.

Yours sincerely

D M Shearing CIAT
