SCHEDULE

Reasons for Refusal

01. The reduction in crown height and radial spread of the Holm Oak trees T1 T2 and T3, and the reduction in crown height to the Maple trees T4 and T5 would, in my opinion be damaging to their appearance, removing the small amount of re-growth from previous works. Although no reason was given for the works, assuming that is due to light issues it is suggested that as an alternative to reduction consideration could be given to crown thin and crown lift the trees to allow more light to filter through and beneath the crowns.

Notes to Applicant

Notes to Applicant

You are strongly advised to ensure that the tree surgeon carrying out the work is made aware of the above conditions. Should the works carried out exceed that which is permitted, then it may be open to the Local Planning Authority to take prosecution action against the owner of the tree(s) and the tree surgeon. If the applicant is unclear about any aspect of the specification for works, they are strongly advised to contact the Council's Arboricultural Officer prior to the commencement of the works.

The applicant's attention is drawn to the provisions of the Countryside & Rights of Way Act 2000. Under the Act, it is an offence both to intentionally or recklessly destroy a bat roost, regardless of whether the bat is in roost at the time of inspection. All trees should therefore be thoroughly checked for the existence of bat roosts prior to any works taking place. If in doubt, the applicant is advised to contact the Bat Conservation Trust at 15, Cloisters, 8, Battersea Park Road, London, SW8 4BG. Their telephone number is 020 7627 2629.
