Morning Marie,

Thank you for your time this morning.

In regards to the planning application for 25 Orient Road, Lancing, I would like this email as confirmation we do not approve and object the application for the rear infill extension to the north-east elevation. If this extension is carried out it will completely block our view/light for our bedroom at the rear of our property.

However as discussed, if this extension is submitted as a joint application and we at 23 Orient Road build the same extension at the same time to mirror the application then we do approve the work.

Please advise us of the next steps.

Kind regards

Zoe Wilmot
