5 Downland Close Southwick – Replacement rear conservatory

Dear Sirs,
I have now received two communications asking whether I have any objection to the proposed planning application at the above address.
As far as I can see the planning application merely refers to the extension of an existing single story conservatory that I am sure will cause no concern to any neighbours – personally I cannot even see their garden for the trees at the bottom.

I therefore find it totally ridiculous that last summer you allowed a planning application for a loft conversion at no. 5 Downland Avenue Southwick, with windows overlooking a large number of gardens below and violating their privacy, including mine, with no neighbourhood consultation whatsoever.

I'm sure you will tell me that as the footprint was within the permitted government limits no planning permission was need. Nevertheless, I find it absolutely insensitive on the part of Adur & Worthing Councils that the privacy aspect and the subsequent effects on the surrounding properties were not taken into consideration while you are going to great lengths to make sure a harmless extension of a conservatory 200 or so feet away from my house will not cause any displeasure.
I think you need to get your priorities right!

Yours,
S.T.Bailey [redacted]
