Dated 23rd October 2010

Dear Mr. Appleton ,

Thankyou for your letter dated 15th October., regarding the ammended plans for 47 Downsway , relating to the the reduced size of the south sided dorma and the introduction of obscuring the glazed window .

I would still like to object to this, again the same reason being the intrusion on my privacy over looking my back garden, as I stated in my letter dated 29th September, therefor I would like it on record that I am appealing against this again. I do not however have any objections to an dorma facing the north side of the building.

Yours Mr. G . Mitchell
