Subject: 60 Buckingham Road, Shoreham - ADC/0151/10

Dear Mr Williams

I write with reference to the above application.

I have a comment with regard to the south side elevation of the proposal. This elevation is very visible from the access road to the school and at present contains some visual interest with the presence of the garage door. The proposed scheme contains a number of high level windows which are acceptable to some extent. However, the central section of the extension in front of the existing vehicular access has no boundary wall to partly screen it and the resulting visual effect is rather bland.

I would like to see a design feature added to this part of the extension to add some vertical emphasis to the elevation, possibly a larger feature window which can be obscure glazed if necessary. I consider that this would provide some interest to this prominent elevation and improve the appearance of the proposal.

Would you therefore please revise the scheme and submit an amended drawing by 21 May.

Please contact me if you would like to discuss the matter further.

Yours sincerely

Peter Barnett
