YOUR COMMENTS ON THE CASE

Placing electric charging points and parking spaces at this specific location raises significant safety and accessibility concerns. The pavement in question is a key pedestrian route, regularly used by children, parents with prams, and individuals with limited mobility. Installing infrastructure that may obstruct or narrow this walkway compromises pedestrian safety and conflicts with the council's duty to prioritise safe, inclusive access to public amenities.

I urge the planning department to consider the impact and safety concerns especially for children, parents and other pedestrians that cross the road at this specific point to gain access to the Green and children's play park, and to reject any appeal that impacts this pedestrian area/crossing to the park. What it desperately needs here is a zebra crossing to allow for safe access to the Green and play park, not parking spaces which will create a hazard and danger to pedestrians.
