YOUR COMMENTS ON THE CASE

Cars driving onto an historic footpath which has been open for over a Hundred years would create grieve danger to the public. Behind the building has enough room to place charging points, we also have four charging points in the car park and charging points in the Cricketers car park. It would also mean the loss of our lovely trees and plants which have been there for many years. This application was denied once and hopefully will be denied again due to loss of trees and danger to people using the right of way around the Green.
