Dear Sir/Madam,

Proposal: To construct 2 new classroom buildings each containing 2 classrooms and 2 stores on the west side. The external works will comprise a hardstanding around the building connecting into the existing hardstanding.
Site: AWDM/1132/22: - Sir Robert Woodard Academy 44 Upper Boundstone Lane, Sompting, West Sussex, BN15 9QZ.

Thank you for your letter dated 27/07/2022.

The applicant has not stated details of means of disposal of foul drainage from the site.

Southern Water requires a formal application for a connection to the public foul sewer to be made by the applicant or developer.

To make an application visit Southern Water's Get Connected service: developerservices.southernwater.co.uk and please read our New Connections Charging Arrangements documents which are available on our website via the following link: southernwater.co.uk/developing-building/connection-charging-arrangements

The Council's Building Control officers or technical staff should be asked to comment on the adequacy of soakaways to dispose of surface water from the proposed development.

It is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site.
