Reasons for comment:	- Design - Privacy Light and Noise
Comments:	Chapel of Rest, West Street, Sompting, Lancing Re. AWDM/0858/21 Thank you for agreeing to infill the 3 existing windows to the north side with matching flint, it has been gratefully welcomed by us and all our neighbours. Regarding the proposed render to the existing brick wall and pier, it would be counterproductive and not in keeping with the flint and stonework of the local cottages and area. Regarding moving the entrance door to face west is ill conceived and problematic. It would immediately face our front door (and downstairs toilet window for that matter), as opposed to where it is now, facing north towards the road. Given the understandable sensitivity and privacy needed for customers visiting the funeral parlour, it feels wholly inappropriate. There have been occasions, even now where the doorway is, we have hurried back in the front door or quickly ushered visitors indoors in order to be discreet and as a matter of respect to the upset and emotional clients visiting the parlour. Moving the

entrance door to directly face us would only make matters worse for both parties.

We appreciate the need for the repair and renovation to the building, which is much needed. And we totally respect that HD Tribe is a business operating in these challenging times whilst trying to maintain it's image and excellent reputation. Both of which we are really supportive of what they are trying to do, it shouldn't be to the detriment of other people in the long term.

If we can be of any further help, please do not hesitate to contact us.

Kind regards
