Hi Jo,

sorry, I did not pick up on the electrical substation.

It is close and could impact the dwelling. As we have an agent of change here the applicant will need to provide an acoustic assessment to ensure that low frequency hums from the substation do not cause a nuisance to the new occupants. We would need an acoustic report establishing the extent of the low frequency noise and detailing any proposed noise mitigation. I would request this before any permission is granted.

Regards

Michael Lavender

Hi Michael

I received this (attached) from UK Power Network. Does this change anything?
