Dear Eve,

Thank you for your email.

The proposed surface we are using on the parking area are bricks.

Are you able to advise on how much longer the application will take?

Thank you and very best,

Rae

The reason for asking, is that the surface needs to be of a porous material, but if you are going to go with shingle or similar, you would need to bed them in by a double row or more of bricks at the edge to the pavement, to prevent them spilling onto the road.
