Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	We object to this application as it undermines a condition which was justly applied to protect our privacy. There are other examples in which building control fire regulations and planning regulations "conflict" in this way, and it is the job of the architect and developer to find a solution. In this case, a safe fire escape route will have to be established via the adjacent rooms or hallway, with whatever internal reorganisation that requires. It is important that our privacy is safeguarded as far as possible since this development has undermined it in so many ways.
