Flint Block Dimensions and Weight

- Each block measures 440mm x 215mm x 100mm (once pointed)
- Blocks are palleted, banded and shrink-wrapped
- For hi-ab delivery there are 64 blocks per pallet
- For pallet truck delivery there are 32 blocks per pallet
- Blocks weigh approximately 18kgs each

Determination of Dimensions BSEN 771-3:2011

The sample meets the tolerance category: D1

No.	Length mm	Wid
1	442.5	7
2	441.0	7
3	442.0	7
4	442.5	7
5	442.0	7
6	442.5	7
Mean	442.0	7

Determination of Compressive Strength BS EN 771-3:2011

Coefficient of variation: 6.9%

Compressive strength relevant to air-dry condition: 29.0 N/mm²

Method of conditioning: water at 20+/- 5deg C

Deterr BS EN
