Dear Sirs

REF: ADC/0029/09
Revised extract system at rear of 112 and continued opening of No. 114 until 11.30 pm with all activity ceasing by 12 midnight (renewal of SU/179/04) (retrospective)

112- 114 High Street,Shoreham-by-Sea,West Sussex BN43 5DB

Further to the receipt of your letter dated 21st April 2009 we would wish to lodge our objection to the revised extract system for the folllowing reasons:

- The existing extract facility was not installed as the original application.
- The system as installed is unsightly and dominates the rear of the building.
- No provision has been made to soften the impact of the structure and at the very least we would suggest that the equipment could be coated to avoid the starkness of the bare metal. This request was specifically highlighted in our original objection in May 2007 – „We would express our concerns with respect to its replacement and that its surface finish should reduce its visual impact."

For the reasons outlined we would wish the Planning authorities to refuse this appication on the grounds of its impact on the adjacent environment.

Yours faithfully

[redacted]

Stephen Cheesman Bsc (Hons) MRICS
