3rd July 2019

Dear Sir

Your ref.AWDM/1027/19

Your letter to me dated 1st. July astonished me .Work has been in progress on the dormer in the front roof of number 9 for some time, and indeed would be finished by the deadline you cite for objections.

I would like to know if steps have been taken to delay any further work until due process has been adhered to in line with democratic right.

My concerns are associated with the design and appearance of the proposed dormer, the appearance of which is out of character with the Close,and in particular will produce an uneven, lopsided aspect to the view of the frontage of nos. 9 and 10.

Personally I have some concern over a loss of privacy

Yours Faithfully

[redacted]

Mavis Macdougall (Mrs.)
