Subject: 81 Hammy Way

Dear Ms O'Keeffe,

I'm the home owner of 59 Hammy Way, Shoreham by Sea which looks directly at the North side of number 81 Hammy Way.
As you are aware 81 have submitted plans for an extension to their home.
I did not receive a letter regarding the proposed extension of number 81, even though my view of it is more than that of number 57, 55 and 53 due to their set back positions so I hope it is ok to write to you directly with my view.

I do not have any objection whatsoever to the proposed extension, over the years Hammy Way like most places has seen alot of extensions to properties of all types and therefore each property has its own individual style now adding to the originality of each property. Of which 81 would become an original individual property.
The majority of the bungalows are now converted to houses, allowing families to grow and stay in the local area, which I personally think is great.

I have read the objections on-line from 3 other residents and I hope that you take these 3 objections as 1 complaint.
It is very clear from how they are written that they originate from 1 source as they are nearly a complete copy and paste of each other.

There may be '3' objections but there are at least 10 - 12 other properties that have sight of number 81 that have raised no objections whatsoever and I hope this is taken into consideration when the planning department make their final decision.

Thank you for your time,
Regards
Susan Glasgow.
