PLANNING SERVICES

Dear Mr Lock + Mr Barnett,

With reference to drawing P03C submitted in Jan this year the cedar wood slats in the window that overlooks my property do not comply with its planning dept condition.

This states quite

clearly that there has to be a fixed louvre on the outside of the window. The proposed slats are inside the window and are described as 'hit + miss' which my definition is unacceptable.

With reference to Mr Broads letter regarding Public Sewers, both 44 Mill Road and 46 Mill Road sewers run under the proposed Western garage and as he says this means this garage will have to be moved

3 m away from the shore.

Yours sincerely

[redacted]
