Stance:	Customer objects to the Planning Application

Reasons for comment:
- Design
- Loss of General Amenity

Comments: On behalf of the Goring and Ilex Conservation Group:-

In our objection of 17th March 2021 to application No AWDM/0279/21 (Temporary siting of storage container for 7 months of the year) we felt that the position of the container shown and the size proposed would add an unacceptable and overbearing industrial element to such a prominent position to the detriment of the local amenity and the enjoyment of the Greensward. In that case we considered that if the container could be located adjacent to the Sea Lane Café building and painted to reflect the café brickwork, it would be more acceptable, or perhaps storage below hedge height could be constructed.

In this current application for year-round use, we consider the above to remain valid and we note that one condition of the original approval was for the colour of the container to be dark green whereas the current colour is an obtrusive blue.

We therefore ask that consideration be given to our original comments and, should approval be given to this application, that a requirement is included that the container be painted in a less intrusive colour such as dark green or dark brown and also be maintained in good decorative order whilst in this position.
