I think this planning application is good for Collingwood court. There has been several of these extensions that have been completed in the surroundings of Collingwood court and I think this gives a much better appearance to the property's. The Close would benefit from this as we think the properties are in need of a facelift. There would be no daylight lost in this as the front of the house is north facing and gets no sun. We are a family of 4 and the one single bathroom we do have is very small. The internal layout of these houses are very limited
From Jason and Rebecca
8 Collingwood court.
