This message was sent from outside Adur & Worthing Councils

I object to this modified (AWDM/0737/26) application for the following reasons:-

1. Development encroaches into the strategic open green gap between Ferring and Goring.
2. Very vague details on the use of animals for entertainment purposes.
3. The shipping containers are/will be an eyesore spoiling views northward from the Greensward and southward from Ilex Way.
4. The 2 x 6m flag poles will also spoil views northward and southward.
5. Use of land to produce natural green energy. Very vague solar or maybe wind turbines?
6. A wheeled advertising trailer. An old old advertising method and an existing eyesore on the site.
7. Development of the land will further reduce the open land used by seabirds.
8. The Gap is unique in our local area ie open farmland running to the coast. It is a much used open space used by local Goring, Ferring, Worthing residents and visitors to the area.
9. Any events organised for the site have the potential to cause vehicle parking problems and major traffic congestion on the local residential roads (as we experienced this summer).
