PLANNING SERVICES

13th July 20

Dear Sir/Madam

With referance to the Pre Planning for the rear of 35-37 High Street , Shoreham By Sea.

I own a Flat to the West.

This is the third adjacent property to propose a rear development.
Two of which have been granted.

There is an inadequate sewer over which this block would be constructed.
Frequent blockages occour,
How will it cope with the increased discharges.

Building over an electrical sub station would seem to be a hazard and an obstruction for maintanance.

Light would be reduced from my east facing bedroom window.

I therefore object to this construction.

Yours sincerely

Michael Hubbard [redacted]
