

The diagram illustrates a cross-section of a road and adjacent structures. A road with a dashed center line runs horizontally. To the left of the road is a sidewalk. To the right of the road is a building with a flat roof. The building's roof is shown as a solid line, and its walls are also solid lines. The ground level is indicated by a dashed line. The building's foundation is shown as a solid line. The diagram is a simple line drawing with no shading or texture.
