Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments neither objecting to or supporting the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	No doubt the replacement LED lighting will be the correct spec for the tennis courts and more energy efficient - a good thing. However there is the possibility of light leakage across neighbouring gardens, depending on how much of the lighting fixture is being changed / replaced / modified etc. The power and beam angle of the new LEDs is also a factor. I would be interested to see the specification or design of the lighting, or to receive 'technical' reassurance that neighbouring gardens and wildlife would not be adversely affected. Thank you.

Kind regards
