Tree Survey and Inspection

Tree (*Species*)	T1 – fir tree G2= Sycamore	Age (*est*):	G2 = 50yrs	Height:	G2 = 20m

LOCATION (Site Address) Southern Cross The Street Shoreham-by-Sea

Proximity of other trees

Importance of tree to locality Tpo Trees

REASON FOR REPORT

T1 = Request to fell fir tree in front garden
G2 = Request to reduce G2 by 33%

REMARKS / CONDITION:

T1 = Large tree in front garden of property that is of little amenity value to the area.
G2 = Small group of trees that have grown very tall for the area. Request was to reduce by 33%. This would not enhance the overall appearance of the trees as a group. Also by reducing the trees they will become top heavy with re-growth, and the resulting increase in the density of the crown would create more shade etc.

WORK / REQUIREMENTS;

T1 = Fell
G2 = Permission is not given to reduce by 33%. Recommend smaller reduction of up to 20% to control height of tree and to maintain a more natural look, so as to keep the original feature of the group. All works must be carried out to British Standard recommendations for tree work; BS3998, in relation to Crown Reduction.

Recommend above works be permitted.

TREE VALUE

A	Important tree worth saving	✓ T1
B	Less important than above	✓ G1
C	Suspect tree requires monitoring	
D	Dead or of no consequence
