Hello Peter,
Many thanks for your email and the attached Link to the amended building plans at No 88 Crabtree Lane.
I have seen the build commence over the past few months and noticed that the builders have partially erected a wooden fence on the West side where the Hollies Flats are in doing so they have stolen some land by removing the Hollies Kerb stone and encroached onto their driveway making quite a mess of the Tarmac and no support for it. The original fence at 88 Crabtree Lane was on the other side of this Kerb they have obviously done this to widen their drive especially where the original house and proposed semi-detached Houses stand. I don't know if the Hollies residents have got Lawyers onto this issue but it has quite upset one of the residents who doesn't know what to do and she has very little funds.
Anyway thanks again for your email

Best Regards

Mr Brian Mesquitta
