Dear Sir/Madam,
Ref Planning application 40 Cheal Close AWDM/0714/13 We strongly OBJECT to the above planning application.
To extend the bungalow frontage almost to the pavement would stand out like a sore thumb and not be in keeping with their fellow bungalows which are all in line as intended by the designer of Cheal Close and, without a driveway, where would they park, as you can see from the enclosed image they don't use their garage as its being used as a store.
If this unprecedented application is successful it would leave the door open for anyone on the Beach to extend their frontages up to the pavement and that would be a planning travesty I await your comments, yours faithfully, Brian and Ann Higgins
