Comments Details

Commenter Type: Neighbour

Stance: Customer made comments in support of the Planning Application

Reasons for comment: - Design

Comments: As we are the direct adjoining property to the camping site I feel that the permission should be given to this application for the following reasons. 1 The site has recently been allowed to increase the number of caravans / campers. The council has approved a significant music concert at Shoreham Airport which will attract a huge no of visitors to this area. At present their is very little control over the site in late evening and during the night. Allowing this application will greatly improve the effective management of the site in terms of noise and overall conduct of individuals visiting the site. Also if an incident should occur their would be a recognised person to take control of the situation, which at present their is no one who is instantly available all though they are nearby it requires a phone call via the mobile networks which can be unreliable during events such as the air show. We feel that the mobile home for the owners use will greatly improve the conduct of the visitors, the traffic management during the busy arrival and departures times, and most important the overall

safety for visitors and local residents alike. My final comment is that site is generally well managed and on the few occasions that I have had to contact Mr Panel his response has been both swift and positive. If their were any doubts in granting permission I wold like to be given the opportunity to speak at any meeting before a final decision is taken to put my views to the planning committee. Yours Sincerely Ian Ellis
