Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments neither objecting to or supporting the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	We have chatted to our neighbours at 81 and as long as the plans are amended so that there is no obscured bathroom window overlooking our decking area in our back garden (this is currently shown on the plan as being on the north elevation - our neighbours have said they will move this to the east elevation instead) then we are supportive of the plan. They have assured us that this will be the case. We are only supportive if this change is made. If this were to remain and the window be able to be opened then this would actually be over our boundary, which we would not be agreeable to. As the plan stands at the moment (as per what has been uploaded to the portal) we would object on the grounds of this window (even though obscured) affecting our privacy as it would directly overlook our decked area in our back garden/ immediately outside our back door.
