14. Minutes of the previous meeting

The minutes of the previous meeting held on 19th May 2010 were approved as a true and accurate record.

There were no matters arising.

15. Public Forum and Questions.

15.1 Ms Francis Smith of the Old Lifeboat House, Shopsdam Road spoke about the re-submitted application for development in Shopsdam Road, ADC/0163/10. Ms Smith, who had previously spoke on this subject at past Planning and Advisory Committee meetings was concerned that this was now a ploy to obtain planning permission in stages. Ms Smith still held serious reservations about the impact that this development would have on the road and services.

This plot was apparently the last coastal plot of land in the area and would command a high sale value and Ms Smith feared that once constructed this would be sold with planning permission for the adjacent plots.

Whilst the Committee sympathised with Ms Smith's situation the Council must judge each planning application as a separate entity and on its individual merits and that in this instance there were no planning grounds to refuse this application. Committee still held similar reservations as regards access along Shopsdam Road and would re-state these to ADC.

It was understood that the new application encroached into the adjacent plot and any proposals for development on the next plot would, it was assumed, require a fresh planning application. This being the case the Council would then have an opportunity to comment on that application on its merits.

The Chair thanked Ms Smith for attending the meeting and her comments.

Cllr Kim Bonnett arrived at this point.

16. Determination of Planning Applications.

Councillors Fred Lewis advised this meeting that he would be on the District Council's Planning Committee when it makes its final decision on the planning applications being considered by the Parish Council. Therefore, any decisions made at this meeting will be reconsidered by him afresh and with an open mind at the meeting of the District Council.

After discussion, it was RESOLVED that:-
