Re : Extension on South side of 18 Parkside, Shoreham.

Dear Paul,

Further to our recent discussions regarding the above extension to your property we hereby agree as follows :-

1. The extension can be built with the wall on the boundary line .
2. The boundary wall to be rendered and painted white (like the existing one now).
3. The existing York stone wall is to remain in place but you can if wanted render and/or screen the wall on the north side.
4. a wall is to be built in line with the boundary to match up with the existing concrete fencing posts and again to be rendered and painted white .

Hope everything goes well

Yours faithfully
