Subject: ADCAG mins. 13.3.2015

Hi Richard,

Attached are recent minutes as required.

Members are concerned at the poor quality of information made available, in once case no application was on the web site & other applications have poor diagrams, sometimes just scribbles. There was a time when Adur planners required stricter adherence by applicants - cannot this be resumed?

regards

Beryl

ADUR DISTRICT CONSERVATION ADVISORY GROUP

MINUTES

of the Group's consultation via email week ending 13th March, 2015.

Participants: Messrs. J.Leigh, R. Richards, L.Parsons, D.Donaldson and Mrs. B. Ferrers-Guy

The following applications were unanimously **APPROVED:-**

AWDM/0190/15 AWDM/0117/15 AWDM/0193/15 AWDM/0095/15
AWDM/0223/15 AWDM/1259/15 AWDM/0142/15*

- It was noted with concern that there was no application with this item & that more care should be taken in ensuring such details are included

AWDM/0237/15 - Concern was felt by all participants that no reasons were given by applicant for the Lombardy Poplar to be felled apart from a scribbled diagram which clearly did not indicate any such reason. The works to the Ash tree are acceptable. Members ask that greater attention is paid to detail when applications are registered.

Please Note: All votes for approval relating to trees are subject to the Parks Inspector also being satisfied with the works.

Michael Thornton did not respond.
